Entrance Door Plates
 While Pacific Pattern is listed on the previous page, we offer both Field and Hammered patterns here. Again, for the lack of space, we have pictured one entrance plate larger than it's corresponding cousins, but all three plates in each series are identical sizes.
Hammered Pattern Large Plates:
 3 1/2" by 19"
Field Pattern Large Plates:
 3" x 17 1/2"

ZC-103SP

ZC-103SP or ZC-106SP Great Craftsman entrance plates. The thumb latch and keyhole distances are set up for our lock L-9SP (SL or DL elsewhere in this catalog). We're able to give you the choice of using this entrance plate with a door knob and small door plate on the other side of the door (using lock L-9SP/SL), or, two thumb latches (using lock L-9SP/DL). We can help you order.

"SP" suffix denotes a cylinder lock plate.
ZC-104TL or ZC-107TL The thumb latch that is normally used on the inside of the door in combination with ZC-103SP or ZC-106SP. Very impressive appearance. If you wish to use an "SP" model entrance plate on the outside of the door, and a "TL" model plate on the inside opposite, -order lock L-9SP/DL
 "TL" suffix denotes a turn latch plate.

ZC-105HO or ZC-105HO While the picture is small, the impression is big! Nice "handle only" plates. They work well where a door is in constant motion and another locking device is installed. The handle is mounted higher up on the plate.

ZC-106SP ZC-107TL ZC-108HO

Possible door combinations:
SP with SP
 (not code)
SP with TL
 Note that you can use one large outside plate with one large inside plate
Lock: L-9SP/DL
 or.....for the inside door..you could use one of the small plates to the right.
Lock: L-9SP/SL

Arts & Crafts Doorknobs
 They go with all three patterns of backplates

ZC-67DK Our **ROUND** door-knobs are of good size, not to be over-powered by a nice sized backplate. 2 3/8" dia by 2 1/4" tall. Both knobs have been carefully cast and are supplied with a square threaded rod spindle (not shown). Patina has been carefully achieved to match the backplates. The knobs fit our 11/16" dia receivers.

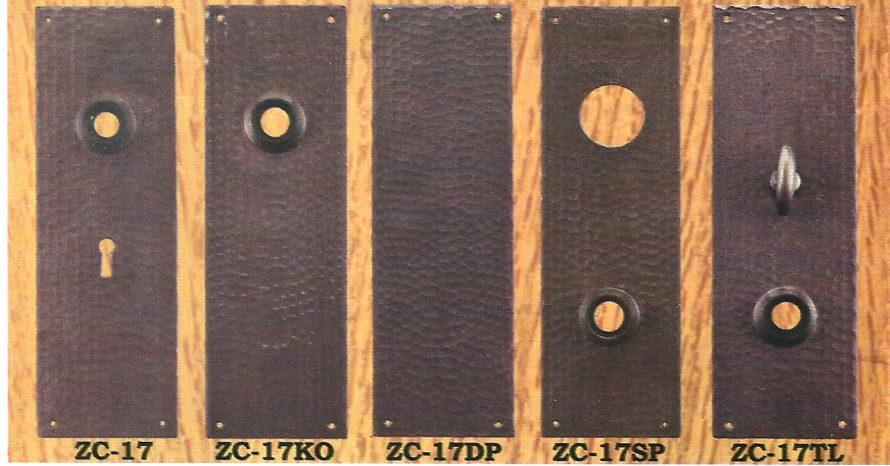

ZC-67DK

ZC-68DK Our **OVAL** doorknobs are a good size and made from Silicon Bronze. They are carefully patterned in our Arts & Crafts shop and antiqued to match our backplates. 1 5/8" by 2 3/8" & 2 3/8" tall. These are heavy knobs, have two set screws, and they are supplied with the square connecting spindle

Hammered Pattern Door Backplates: 2 1/2" by 8"

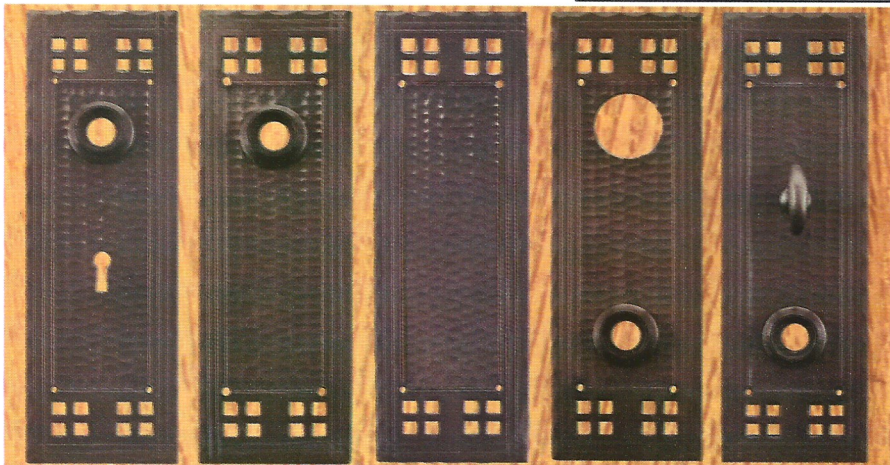

ZC-18 ZC-18KO ZC-18DP ZC-18SP ZC-18TL

Field Pattern Door Backplates: 2 1/2" by 8"

Pacific Pattern Door Backplates: 2 1/2" by 8"

Doorplates Sp and TL use our lock L-9SP while ZC-17, ZC-18 & ZC-19 can use lock L-9 or L-53ML i.e. 2 1/4" c/c from knob to keyhole bit.
